THE FINANCIAL EFFICIENCY OF PROJECTS IS INTEGRALLY DEPENDENT ON THE SKILLS OF EMPLOYEES

A group of employees of JSC "Heat Electric Stations" received training organized with the support of the Japan International Cooperation Agency (JICA) in the areas of creating a business plan, reducing product costs, and determining key performance indicators (KPIs). are participating in the seminar.

More than 10 employees of the central office of "Heat Power Stations" JSC and Finance and Economics Department of Navoi IES are participating in the training course organized by the Agency within the framework of the project "Strengthening the financial and management potential in the energy sector of the Republic of Uzbekistan".

During the classes held by qualified specialists, the participants will learn about the aspects that should be paid attention to when creating a business plan for its successful implementation, ensuring the transparency of key performance indicators (KPI), correctly defining the goal and implementing it. they are strengthening their knowledge on identifying ways to achieve, calculating product costs based on real outputs and reducing excess costs with the help of innovative technologies.

- Correctly determining efficiency and forming a business plan based on it is an important issue for every enterprise that considers itself a leading company. Therefore, we are constantly trying to increase our existing knowledge in this direction, - says Akrom Arzikhodjayev, head of the General Department of Economy and Forecasting of JSC "Heat Power Stations".

The main purpose of organizing these trainings is the plan of practical measures for the timely implementation of

investment projects and trade agreements signed during the official visit of the President of the Republic of Uzbekistan to Japan on December 17-20, 2019, and It consists in the implementation of the "Roadmap" for the qualification improvement set by the enterprise for 2022.

- More than 4,000 employees have strengthened their knowledge and gained new areas of communication in their fields during training courses in various areas, which began at the beginning of this year. We believe that these lessons will also have a positive result, - says Feruza Turgunova, head of the Department of Work with Employees of "Issiklik Elektr stansiyali" JSC.
